## THE UNIVERSALISTS.

Meetings Preliminary to the Convention Which Assembles This Morning.

The Women's Centenary Association and the Work It Has Done.

Addresses by Rov. Messrs. Capen and Hayden on Education and the Ministry

List of Delegates Who Have Arrived-Programme for To-Day.

Yesterday morning there was an informal meeting of the members of the Women's Centenary association at the Universalist church, and at 1:30 o'clock in the afternoon the fifteenth annual session of that organization was commenced, Mrs. M. Louise Thomas, of Philadelphia, the president, in the chair. Mrs. Rev. Caroline A. Soule opened the ses-

sion by prayer.

The report of the recording secretary was read and adopted. The treasurer, Mrs. M. A. Adams, of Massachusetts, showed the finances of the association to be in a healthy and flourishing condition. During the year \$15,000 has been collected in dues and \$3,000

\$15,000 has been collected in dues and \$3,000 was given by Miss H. H. Fay for an organ for the church in this city.

The report brought good cheer to the members, and was adopted unanimously.

A very gratifying report of the publishing company was made showing progress in the good work of sending out tracts, letters, and papers. Fully 4,000,000 pages of tracts have been scattered broadcast over the world, by

been scattered broadcast over the world, by which means the religion of Jesus Christ has reached those mostly in need of it. Mrs. Soule and Mrs. Thomas spoke con-cerning the distribution of these papers, showing that the labor performed in this direction had been long and indestinable. direction had been long and indefatigable. a very encouraging letter was read from Mrs. C. A. Quinby, of Maine. Mrs. M. I. Draper, of Massachusetts, made a few remarks on the progress of the association in her state, say-ing tersely that the blossing comes from the

little things we do aright.

Mrs. E. D. Tomlinson, substitute for Mrs.

H. E. Lough, vice president for Ohio, gave a good report of matters in the Buckeye state. Satisfactory reports were received from Illinois, Texas, and Kansas. From the latter state and the District of Columbia Mrs. Barnes state and the District of Columbia Mrs. Barnes and Mrs. Emily L. Sherwood, respectively, gave glowing reports of progress. In the new church in which they met the organ, the stand, the book upon it have been the gifts of women. The money collected was more than the amount asked for, and the labors of the ladies here in this city had been amply rewarded.

The report from the trustees of the Univer-

The report from the trustees of the Universalist missionary post at Giasgow, Scotland, was very gratifying to the members in this was very gratifying to the members in this country. The committee on nominations reported the following named ladies for officers of the executive board: President, Mrs. M. L. Thomas, of Philadelphia; recording secretary, Mrs. L. C. Browne, of New York; corresponding secretary, Mrs. L. C. Browne, of New York; corresponding secretary, Mrs. E. D. Tomlinson, vice Mrs. E. R. Hanson, Chicago; treasurer, Mrs. M. L. Deane, District of Columbia: publishing committee, Mrs. C. A. Soule, president emeritus.

A rising vote of thanks was given Mrs. M. A. Adams, the retiring treasurer; also Mrs. Hanson. A public meeting will be held in the church Thursday, immediately after the morning session of the convention, when Mesdames Soule, Thomas, Barnes, Hannaford, and others will address the meeting.

The object of this association is to promote the interests of the Universalist church throughout the world, and particularly in

throughout the world, and particularly in the United States, and it has vice presidents in every state, territory, and district in this country, as well as in the United Kingdom and Canada.

The Universalist general conference was prefaced last night by two very interesting lectures—the first by Rev. E. H. Capen, D. D., president of Tuit's college, Massachusetts, on "Our Schools," and the other entitled "The Ministry," by Rev. C. A. Hayden, of Maine. After singing by the choir and prayer the regular pastor. Dr. Kent, in a few welcoming remarks, introduced Rev. E. H. Capen, who said: There is no subject of more vital importance or more to the hearts of Univermust live by their institutions, and no body of Christians ever illustrated this truth

clearer than Universalists.

The people are interested in this subject, and the men of the elden times who held to the truth of our faith looked forward to the time when institutions for the purpose of training men to carry forward and advocate our faith and principles in a clear and intel-lectual manner would be established. Our publishing houses turn out books, periodicals, and papers in great numbers, and we must place our colleges on the same or equal footing with other great institutions of the land. The endowments must be generous and large, that we may be able to send forth strong, true, intelligent, substantial men to preach.

A short time ago we were a byword and re-proach, but now we are recognized as a branch of the Christian tree and that we are doing the work of Christ.

The progress made in and by our schools in the cast and west is simply astonishing. Large sums of money have been donated and hundreds of young men have been educated. The people are looking to the duty hundreds of young men have been educated. The people are looking to the duty before them. These matters are coming before them in a new light. We are living in an age of progress, and nothing is seen more plainly than the progress of education. The college which wishes to succeed must move with the age. Taft's college Massachusetts St. Lawrence university. succeed must move with the age. Tatt's col-lege, Massachusetts; St. Lawrence university, New York; Buchtel college, Ohio; Lombard university, Illinois; Dean academy, Massa-chusetts; Westbrook seminary, Maine; God-dard seminary, Vermont, and Clinton Liberal institute, New York, are among the institu-tions of learning controlled by the Univer-salists.

Young men are too anxious to hasten into the ministry. The men who go into the ministry must be capable to cope with ministers of every other denomination, and to do so successfully they must first be thoroughly educated. The speaker closed by saying you must do your duty—see that you raise the standard of ministerial education—so the minister may be able to teach you the may be

minister may be able to teach you the word of God as it should be taught.

Rev. C. A. Hayden said as to the ministry that there is a call for ministers from all sides, but there are pleuty of ministers and churches. What we want in our ministers is carrectness. What we want in our ministers is carrectness. Throw your whole soul into the work. The people want what they believe. The minister has not the time to solve the questions of scientists nor answer those of the doubter. The point to gain is this: Declaro the message of the gospel as you understand it. Our power is God's power, and this power is our faith in God's power, within us. More is our faith in Ged's power within us. Men are wanted to preach the gospel as it is, and

nothing more nor less.

What we want is brave, sincere men to emphasize the truth, and we want it told and

emphasized in every path.

The conference proper begins this morning, and the following is the programme: Morning -8:30, introductory conference meeting:

SURE AND UNFAILING CUIE, FOR ALL
forms of malaria. What Rev. T. J. Yost, editor of
The Pulpit and Parsenago, "says: "Having been
afflicted with malaria for years, and having taken
quinine until my nerves began to be affected. I began
to ty so-called specifics for malaria of every kind,
only to be disappointed. I was assured by a business
man with whom I have daily intercourse that if I
would take PROF. MORSE'S AGUE MAONETS acording to directions they would cure me. I am now
prepared to say that I regard them as infinitely superior to quinine, and decidedly better than anything
I have ever trised." A trial will cost but little. You
will be sure to recommend it to your friends. Don't
suffer, but call and get a box at once, conting only foc.
